I. Impact to AIT

AIATAA Myanmar Chapter’s current mission and vision are:

Mission

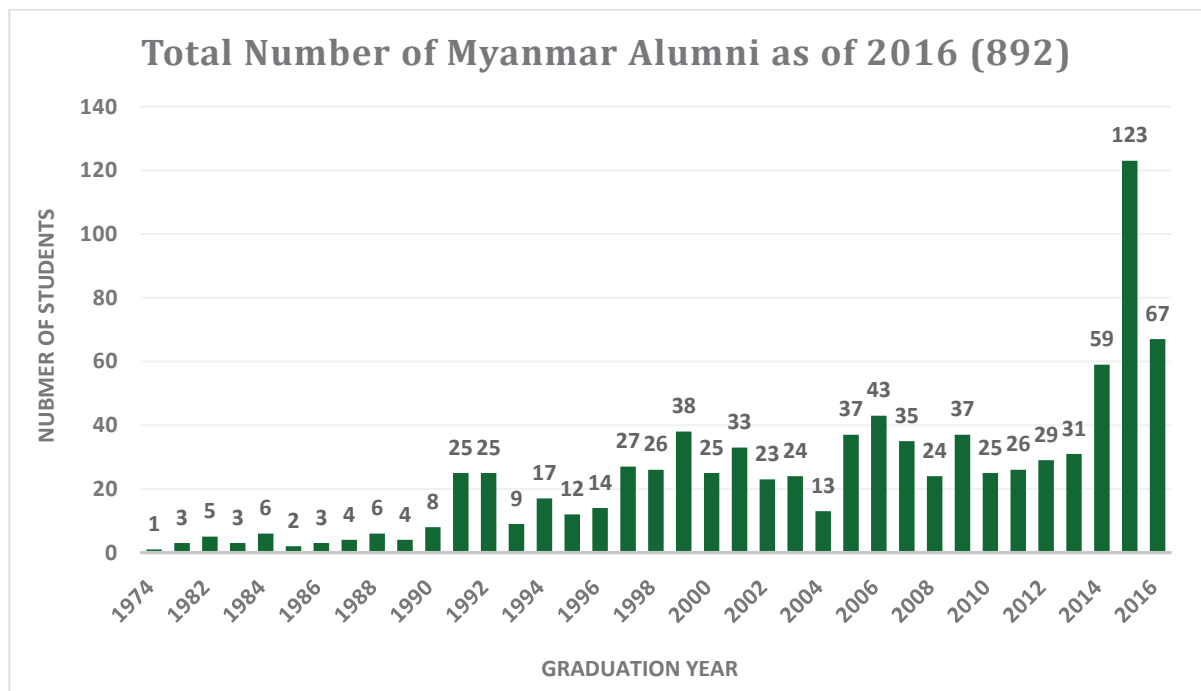

AITAA Myanmar will support to AIT with affordable capacity and encourage to country's sustainable development especially in educational sector by building the continuously growing network between all AIT Alumni residing in Myanmar and oversea.

Vision

To become a dynamic team sharing achievements and experiences through its network and supporting to create better learning environment for next generation

1) Indirect Support

The first Myanmar student completed his Masters in 1974. No Myanmar student joined AIT for a few years after that as AIT was not well known in Myanmar at that time. From 1981 to 1985 only 19 Myanmar students graduated from AIT (less than 4 students per year on average). Total graduated Myanmar students increased to 25 from 1986 to 1990 (average 5 students per year). In 1991 alone, a total of 25 Myanmar students graduated from AIT – which was the first significant increase of Myanmar alumni. A total of Myanmar alumni to date is 638 (as of May 2013). There will be more Myanmar alumni in coming years as Norwegian Government has granted a considerable number of scholarships to Myanmar citizens (40 and 50 scholarships in August 2012 and 2013 intakes respectively). The number of Myanmar Students graduated in each year is shown in the graph below. Majority of Myanmar alumni live and work in Myanmar in various capacities – most of them are successful leaders in their respective fields.

2) Direct Support

AITAA Myanmar Chapter is a bridge between AIT and AIT Alumni, a Forum among the AIT Alumni for social activities as well as professional ones. Furthermore, AITAA Myanmar Chapter assists and provides the information related to AIT for the potential students as necessary. AITAA Myanmar Chapter coordinates and organizes seminars, workshops, trainings accordingly, and social parties in line with the objectives of AITAA (Myanmar) Chapter as follows:

- To strengthen networking among Myanmar AIT Alumni
- To contribute to the development of Myanmar Society
- To promote the image of AIT.

3) Chapter's website, blog or social media sites, and official status

AITAA Myanmar Chapter is building a network among AIT Alumni inside and outside Myanmar to coordinate and collaborate for the future development of Myanmar society. The records of the activities of AITAA Myanmar Chapter will be available at Face Book.

<https://www.facebook.com/groups/AITAA.Myanmar.Chapter/>

AITAA Myanmar Chapter is in the process of forming an official association registering at Ministry of Home Affairs. After this set up is approved by the authority, we will extend our Alumni networks more effectively and will also form the sub-Chapters at the major cities such as Nay Pyi Taw, Mandalay, and Taunggyi, etc.
